Hi All,

This is a quick picture tutorial on how to make our JIRA PIPE tickets and website play nice to get project summaries on the web.

For the end result on <https://informatics.sydney.edu.au/projects/> to look like this:

Predicting Crime using a Spatial-Demographic Framework 1. Title

pipe-XXX-thumbnail.png

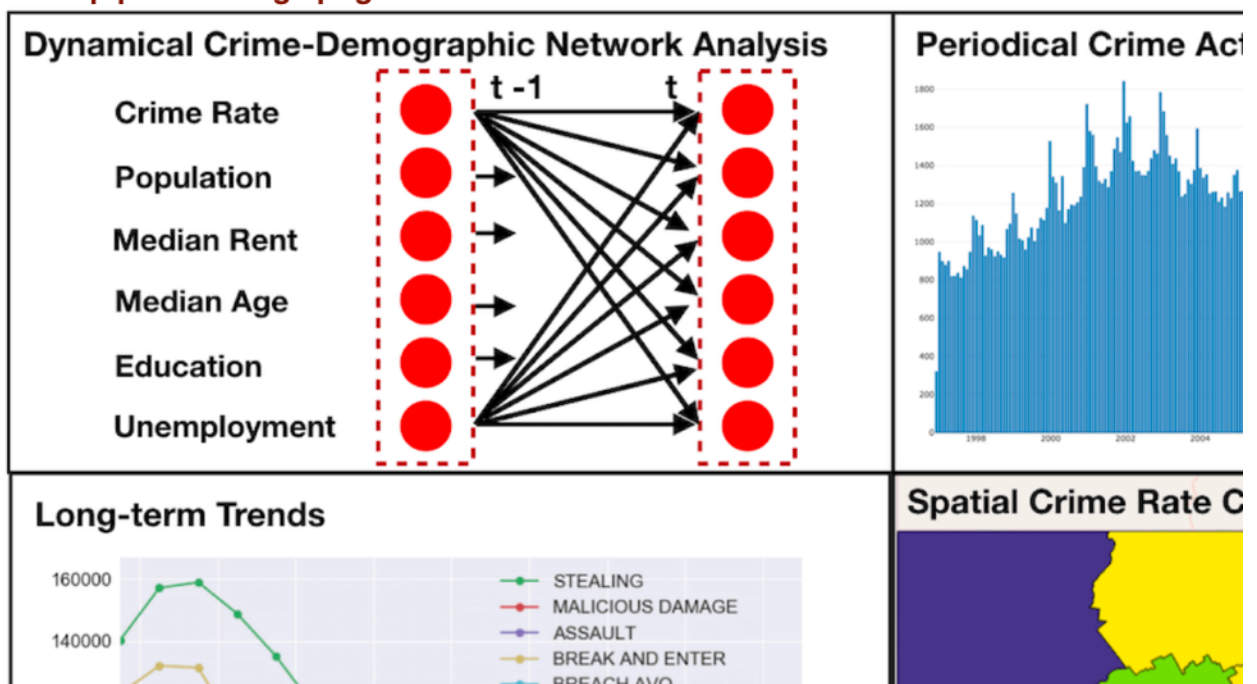

- **Clients:** Dr. Roman Marchant, Centre for Translational Data Science 3.
- **Faculty:** Faculty of Engineering and Information Technologies 9. Facu
- **SIH Team:** Data Science (Dr. Sebastian Haan) 8. SIH Team, 4. SIH S
- **Year Completed:** 2018 7. Actual Completion date (year only)
- **Deliverables:** Verbal advice Software 5. Deliverables
- **Methodologies:** Data collection Predictive modelling Inferential modelling Da

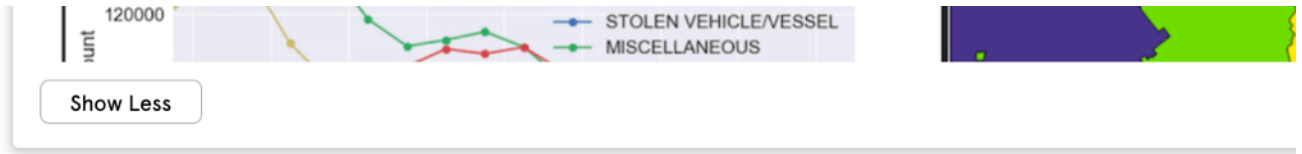

6. Methodologies

2. Content

Responding to domestic violence related assaults dominate much of the NSW Police's resources. We try to understand the relationship between social-demographic change and cause the occurrence of crime using a complex modelling framework. The social-demographic inter-dependencies were modelled using a Bayesian vector autoregression model. We built a collaboration with the NSW Police to analyse all offences in NSW over the last 20 years, and sourced demographic data for multiple census years. The results are used for decision-making by government and police.

Images (thumbnail + large image)

And then you want nice images to make your project look pretty.
Put these in the directory SIHWebCode/static/images/pipe/
And name them as “pipe-XXX-large.png” and “pipe-XXX-thumbnail.png”

pipe-197-large.png

pipe-197-thumbnail.png

Image guidelines:

Thumbnail = png image 200 pixels wide

Large = png image around 1000 pixels wide give or take.

To resize an image in OSX terminal, use the following command: (this will resize to 200px wide while maintaining aspect ratio)

```
sips -Z 200 /path/to/image.png
```

Hope this has been helpful,

Cheers,

Gordon

P.S. It may take a while before the project updates on the actual website itself, or it may be instantaneous, depending.
